

FOR IMMEDIATE RELEASE

EMPOWERED INTERNET SOLUTIONS POWERS PAST 200 CLIENTS

Website developer secures that number in less than 12 months

Honolulu, HI - Empowered Internet Solutions, LLC (EMPOWERED), a locally owned and operated web solutions company is taking the Hawaii website development business by storm. Officially opening their doors in September 2005, they have now recently secured their 200th customer in less than one year. EMPOWERED has clients on Oahu and the Neighbor Islands.

EMPOWERED achieved growth has come by their ability to understand the effort involved in setting up and maintaining a professional web presence and making it their mission to break down the technological barriers of the internet. They offer businesses of all sizes affordable, yet cutting-edge technology coordinating with local vendors to ensure the highest level of service.

The growth has centered around ZeppOS, a total-site management application system that allows companies or individuals with little or no technical background to update their websites directly, eliminating the process of communicating updates with web programmers. The updating process is similar to using Microsoft Word, with the management tools integrated directly into their website. ZeppOS is an easy-to-use software package, facilitating the ability to transfer existing websites, and / or rapidly deploy new websites. Once the initial site is completed, the user will have the option of either updating the website on their own, or having EMPOWERED staff conveniently do it for them.

EMPOWERED INTERNET SOLUTIONS PASSES 200 CLIENTS – PAGE 2

“We knew our product would be well received and we felt it would eventually make its way into nearly every business, but we are pleasantly surprised with how quickly our customers responded to the simplicity, quality and low cost of ZeppOS,” says Empowered CEO, Rob Bertholf. Empowered also provides and emphasizes their ability to develop and design websites. Empowered encompass their main purpose to design websites that will attract attention, give a professional image and support the message businesses are trying to convey in writing. Getting to know the client is the most important objective for Empowered.

Empowered also encompasses several other web services and solutions such as; web and email hosting and support and various specialty services. It is a goal at Empowered to present the most advanced web hosting solutions available today. With state-of-the-art web servers they will ensure that clients receive a powerful and reliable hosting experience. “If you desire competitive value and superior performance, we offer the most comprehensive hosting solution for your personal or business site.” says Bertholf.

Along with distributing the ZeppOS management tool and providing hosting and support, Empowered also partners with the local specialty service sector. Through Empowered's network of partner and affiliate businesses, they act as a general contractor with the ability to provide the most competitive pricing for services ranging from photography to graphic design or copywriting.
