HAWAII COMPANY, EMPOWERED INTERNET SOLUTIONS, SECURES MORE THAN 50 WEB CLIENTS WITHIN TWO MONTHS OF LAUNCHING REVOLUTIONARY WEB PRODUCT

Honolulu, HI (December 12, 2005) – Empowered Internet Solutions, LLC (EIS), a fast-growing, locally owned and operated internet solutions company specializing in website development, has surpassed its own growth expectations by securing more than 50 clients within two months of the company’s opening. (See client list/next page)

EIS recently launched its anchor product, WebOS, which promises to revolutionize the way websites are built and maintained.

“We knew our product would be well received and we feel it will eventually make its way into nearly every business but we are pleasantly surprised with how quickly our customers responded to the simplicity, quality and low cost of WebOS,” says EIS CEO, Rob Bertholf.

WebOS is a very easy-to-use software package, facilitating the ability to transfer existing websites, rapidly launch new websites, and or create or re-design multimedia-enabled websites. WebOS is a hybrid content management system (CMS) with full-site management capabilities and a library of extended functionality, allowing websites to be updated directly from the Internet by personnel with little or no technical background.

(More)

In just two business days, EIS can convert an existing website to the WebOS platform. If you don't yet have a website, EIS can create and deliver a powerful, effective and aesthetically pleasing website through their professional services. Partnering with local designers, EIS pairs clients with graphic artists who are best suited to each industry.

With WebOS, EIS can deliver a new website within a week, compared to more than a month that most website developers take. The starting price of \$1499 will get your existing site transferred to the WebOS management system. For \$1000 more, customers can receive a complete website makeover or a brand new site design. The highest priced package offers multimedia-enabled website creation for \$3499.

Empowered Internet Solutions, LLC (EIS) is a locally owned and operated company based in Honolulu, Hawaii. EIS understands the effort involved in setting up and maintaining a professional web presence and has made it its mission to break down the technological barriers of the internet. EIS offers businesses of all sizes affordable, yet cutting edge technology. Visit EIS on the web to learn more at <http://www.EmpoweredInternet.com>.
